

Revised 12 August 1969

SECRET

Criteria for Nomination to the Midcareer Executive Development Course

1. Individual should be under 45 years of age and generally at grade GS-13.
2. To be sure that the best candidates are nominated, it has been suggested that some thought be given to the nomination of some very outstanding GS-12's who are being considered for early promotion to GS-13 and some exceptional young GS-14's who have been recently promoted to that grade.
3. Individual concerned has potential for promotion to GS-15 or higher in the foreseeable future.
4. A thorough review of each individual's training, education, and experience should be made; and his potential should be realistic considering such pertinent items as:
  - a. Does the individual have the willingness to serve wherever the Office of Logistics determines he is qualified and is needed.
  - b. Does the individual have the potential for assuming the responsibilities of a position of leadership?
  - c. Is the individual a good candidate for a cross training program, not only within the Office of Logistics but within the Agency?
  - d. Is the individual a specialist in a field wherein it would not be feasible to cross train, but of sufficiently high caliber to warrant development?
  - e. Is the individual likely to remain with the Agency for the remainder of his career?
